by browsing about 10 000 000 scientific articles of over 200 major journals mainly in a cover to cover approach some 200 000 publications were selected the extracted data is part of the following fundamental material research fields crystal structures s phase diagrams also called constitution c and the comprehensive field of intrinsic physical properties p this work has been done systematically starting with the literature going back to 1900 the above mentioned research field codes s c p as well as the chemical systems investigated in each publication were included in the present work the aim of the inorganic substances bibliography is to provide researchers with a comprehensive compilation of all up to now published scientific publications on inorganic systems in only three handy volumes

with nearly three thousand new entries the revised edition of operas in german a dictionary is the most current encyclopedic treatment of operas written specifically to a german text from the seventeenth century through 2016 musicologist margaret ross griffel details the operas composers scores librettos first performances and bibliographic sources four appendixes then list composers librettists authors whose works inspired or were adapted for the opera librettos and a chronological listing of the entries in the a z section the

bibliography details other dictionaries and encyclopedias performance studies collections of plot summaries general studies on operas sources on locales where opera premieres took place works on the history of operas in german and selective volumes on individual opera composers librettists producers directors and designers finally two indexes list the main characters in each opera and the names of singers conductors producers composers directors choreographers and arrangers the revised edition of operas in german provides opera historians musicologists performers and opera lovers with an invaluable resource for continued study and enjoyment

inorganic chemical pollutants such as SO_2 and NO which also act as the major precursors of acid rain as well as ecotoxic heavy metals and metalloids cadmium lead mercury copper zinc nickel chromium arsenic selenium etc have gained considerable significance as regards the ecotoxic burden on vegetation soil and natural waters and as air pollutants the rapid increase that has recently been noticed in severe damage to forests has suddenly aroused public interest in the ever growing problem of inorganic chemical pollutants to a hitherto unknown extent especially as in addition to the damage to vegetation this also constitutes a growing hazard for man via food chains research on the level fate and transfer as well as on the ecotoxic and toxic impact of inorganic pollutants has therefore gained considerable significance in science and furthermore as a sound scientific basis for relevant environmental protection regulations in research politics and in public awareness

this volume deals with one of the oldest midrashim the eschatological midrash from qumran cave 4 4qmidreschat previously unknown

is preserved in at least two copies 4qflorilegium 4qcatena a found at qumran a reconstruction of 4qflorilegium and 4qcatena a is given in the first part of the book the second part is a comparative analysis which shows that both manuscripts are copies of the same former work 4qmidreschat the third part deals with the other exegetical qumran texts a definition of 4qmidreschat s genre its position among the qumran literature and its dating 4qmidreschat provides valuable information on bible interpretation and eschatology among the essenes in the first century bce 4qmidreschat is of special significance because according to recent studies the essenes are no longer to be regarded as a sect but as one of the most important jewish groups of that time

music in germany since 1968 modifies the dominant historiography of music in post war germany by shifting its axis from the years of reconstruction after 1945 to the era following the events of 1968 arguing that the social transformations of 1968 led to a new phase of music in germany alastair williams examines the key topics including responses to serialism music and politics and the re evaluation of tradition the book devotes central chapters to helmut lachenmann and wolfgang rihm as focal points for areas such as postmodernism musical semiotics and action based gestures further chapters widen the scope by considering the precursors and contemporaries of rihm and lachenmann especially in relation to the idea of historical inclusion williams s study also assesses the development of the darmstadt summer courses addresses the significance of german reunification and considers the role of germany in a new stage of musical modernism

a survey of unity and diversity in christ s saving work read and interpreted through the lense of the theology of karl barth
